

TSK 19

2nd circular

19th Symposium on Tectonics, Structural Geology and Crystalline Geology

will be held at

Martin-Luther-University Halle-Wittenberg,
Institute of Geoscience and Geography

March 09th -11th, 2022
Heidecampus, MLU Halle

We invite contributions for oral and poster presentations from all related fields: structural geology, tectonics and metamorphic petrology, as well as magmatic petrology, geophysics, sedimentology, material sciences, geochronology, geomorphology ...

Topics

- Deformation and rheology
- Geodynamic modeling
- Applied structural geology
- Open topics of TSK
- Aspects of regional tectonics
- Basement geology and petrology
- Active tectonics and surface processes

Preliminary program

Dates & deadlines

Abstract deadline 02.02.2022
Registration open from 05.01.2022
Talks & posters 09.-11.03.2022
Workshops 07. & 08.03.2022
Pre-conf. field trips 07. & 08.03.2022
Post-conf. field trip 11.-13.03.2022
Icebreaker 08.03.2022
Conference dinner 10.03.2022

Workshops

Image analysis
(Renée Heilbronner, Basel)
Texture and microstructure with MTEX
(Ralf Hielscher, Freiberg & Rüdiger Kilian, Halle)
Thermodynamic modeling with Theriak-Domino
(Thorsten Nagel, Århus)

Field trips

Tectonics of the Harz mountains
Post-Variscan deformation in Wettelrode,
Kupferschiefer Röhrigschacht
Salt tectonics, Bernburg

TSK will be held in-person according to the effective COVID-19 rules.

The organizing committee: R. Kuehn, S. Schnapperelle, R. Kilian, D. Mertmann, M. Stipp
